

Organization Chart Showing Relationship Between The United Illuminating Company (“UI”), its sales unit, and its Energy Affiliate, Bridgeport Energy, L.L.C., as required by FERC Order No. 2005

UI does not share any facilities or employees with its Energy Affiliate, Bridgeport Energy, L.L.C. UI does not share any Transmission Function Employees with the QF Administration Activity. The office location of the QF Administration Activity is in a building where some UI Transmission Function Employees are located. However, these Transmission Function Employees perform their jobs separately from the QF Administration Activity in that building and are not directly engaged in day-to-day transmission operation and control duties and responsibilities, and such Transmission Function Employees do not provide any discriminatory or preferential benefits to the QF Administration Activity. The UI Transmission dispatch center and most UI Transmission Function Employees are in a totally separate building from the QF Administration Activity. The only other facilities shared by UI's Transmission Function Employees and the QF Administration Activity are common telephone and computer systems. However, access to information regarding the Transmission Function is limited as described in Sections 7.0 and 9.0 of UI's Policy Implementing the FERC Standards of Conduct, posted on UI's website.
