Come and learn about Energy Management Planning.  
Topics to be discussed include:

### Seminar Topics:

- Why Energy Management Planning?
- What if you are asked to develop an Energy Management Plan?
- Who would be on your Energy Management Planning team?
- How can you work with utilities to manage tracking and accounting of energy?
- What are realistic expectations of performing energy audits?
- What benchmarking information is there through Energy Star?
- What are low cost/no cost approaches?
- What are fundamentals of preparing an Energy Management Plan report?

### Directions:

#### From Points North and South

Take Route 9 to Exit No. 21 and follow signs to Routes 5 & 15 North (toward Hartford)  
Proceed North on Routes 5 & 15 for 1.7 miles  
Turn right onto Selden Street  
Driveway for Northeast Utilities is on the left

#### From Points West
