

Attachment 2

Non-Residential Renewable Energy Solutions Program REC Buyback Contract

Eversource/United Illuminating will enact quarterly transactions whereby the Customer will purchase and retire the RECs associated with the Customer's project from the EDC after the EDC has already purchased the RECs via the NRES Program. The EDCs will invoice the Customer on a quarterly basis for the Connecticut Class I RECs created by the Project. Any RECs that are not paid within 15 days of the Invoice Date may be separately sold by the EDC into the Connecticut Class I REC market. REC Buyback transactions will be discontinued after four consecutive quarters of unpaid or late invoices. This transaction will operate in the same manner for both the Netting and Buy-All Tariffs.

REC Buyback Option Elected?	<input type="checkbox"/> Yes <input type="checkbox"/> No, this form does not apply.
REC Buyback Price (\$/REC)	Prevailing Connecticut Alternative Compliance Payment per REC
NEPOOL GIS Account Name of Customer (Recipient)
