

# INSTALLATION OF THE ELECTRIC METER BELOW THE BASE FLOOD ELEVATION.

(This form must be submitted to the appropriate utility prior to starting any service work)

Customer Name:		Date:
Home Address:		
Service Address:		
Home Phone:		Cell Phone:
State reason for exemption:		
As the customer of record for the above service address you acknowledge and agree to the following conditions:		
<ol style="list-style-type: none"><li>1. The customer must install an approved meter socket. In the event of flooding the meter socket and connections may become damaged due to contact with salt water.</li><li>2. In the event of flooding, the customer is responsible to have the meter socket inspected and/or replaced before the service can be re-energized.</li><li>3. Installing the meter socket below the BFE may affect the customer's insurance. The customer is responsible for checking with their insurance company prior to submitting the application.</li><li>4. Depending on the degree and nature of the flooding and storm damage, your service will most likely be disconnected at the pole due to the submersion of the meter and meter socket by flood water. This may increase the restoration time for your service due to repairing/replacing the meter socket and service entrance equipment.</li></ol>
