

The United Illuminating Company
Load Control Rider LC

Applies throughout the Company's Service Area.

Availability:

Availability to any demand-metered Customer who by contract agrees to interrupt a minimum of 30 kilowatts subject to availability and installation of the required metering equipment.

Terms and Conditions:

The Customer may designate any amount of load equal to or greater than 30 kilowatts as Contracted Load Reduction. The primary requirements are:

Minimum Notice for Interruption:	1 hour
Maximum Daily Duration:	10 hours per interruption

Rate per Month:

In any month when the Customer's load is reduced at the Company's request, a credit calculated as follows will be applied to the Customer's bill:

Number of Days Load Reduction Requested	Credit per kilowat of Reduced Load
1	\$ 2.00
2	2.50
3	3.00
4 or more	4.00

Monthly Credit Calculation:

For each billing month in which an interruption is requested, the Customer will be credited the Performance Payment. The Performance Payment will be calculated by multiplying a) the Actual Load Reduction, by b) the number of interruptions in the billing month, by c) the Performance Credit.

The Actual Load Reduction will be calculated for each billing month by subtracting a) the average demand during periods of interruption, from b) the average demand during the same hours of the billing month's other weekdays when interruptions were not requested, excluding the Customer's holidays and scheduled shutdowns.

The Company's Terms and Conditions in effect from time to time are a part of this Rider where not inconsistent with any specific provisions hereof.

Minimum Term of Service:

One year.
