

The United Illuminating Company

Bidder's Certification of Carbon Neutrality by 2040

(To be provided, if applicable)

PURA's April 13, 2020 Correspondence in Docket 19-07-01 states, "All bids received from Class I renewable energy source that emit carbon must certify that the project is technologically capable of becoming carbon neutral by 2040 and will take all measures to become carbon neutral by 2040 should a statewide 100 percent zero carbon electricity goal be established. See Executive Order No. 3 dated November 3, 2019 signed by Governor Ned Lamont. See *also*, S.B. 10, Session Year 2020."

Therefore, for informational purposes only, UI requires that this Certification of Carbon Neutrality be submitted for projects using Fuel Cell or Anaerobic Digestion technologies, as well as any other Class I renewable energy source that emits carbon.

Bidder hereby certifies the following:

1. This project is technologically capable of becoming carbon neutral by 2040; and
2. All measures will be taken to become carbon neutral by 2040 should a statewide 100 percent zero carbon electricity goal be established
