

## Guidance for additional ITC adder and Tax Credit Bonus

The map below displays the geographic overlap between Connecticut's Distressed Municipality list; census tracts designated as Low-Income Communities eligible for the ITC adder under Category 1 of the Low-Income Communities Bonus Credit Program\*1, including the additional Geographic Criteria and areas eligible for the ITC adder under the Energy Community Tax Credit Bonus (excluding brownfield sites).

Figure 3: Geographic Eligibility for the Low-Income Communities Bonus Credit, Energy Community Tax Credit Bonus, and Distressed Municipalities

\*1- Additional information on the Energy Community Tax Credit Bonus and a mapping tool is available at <https://energycommunities.gov/energy-community-tax-credit-bonus/>.

\*2 - Low-Income Communities as designated by the NMTC can be downloaded at [https://www.cdfifund.gov/sites/cdfi/files/2023-08/NMTC\\_2016-2020\\_ACS\\_LIC\\_Sept1\\_2023.xlsb](https://www.cdfifund.gov/sites/cdfi/files/2023-08/NMTC_2016-2020_ACS_LIC_Sept1_2023.xlsb). The maps and data provided here utilize NMTC low-income community data based on the 2016-2020 American Community Survey, released in September 2023. For one year following the release of updated data, either the 2011–2015 ACS low-income community data or the updated data can be used to determine the poverty rate for a population census tract. CEJST data is available at <https://screeningtool.geoplatform.gov/en/downloads>.

Energy Communities geographic eligibility data is available at <https://edx.netl.doe.gov/dataset/ira-energy-community-data-layers>.

RRES projects in parts of Stamford, Danbury, and Bridgeport appear to be eligible for an ITC of up to 60%. RRES projects in Bridgeport are also eligible for the Distressed Municipality adder.
