Contractor Bid Form Questionnaire	The United Illuminating Company	
Version 1- June 1, 2024	Eversource Energy	
·		
Instructions		
File should be completed using Excel 2010 or later.		
2. Set Calculation Options in "Formulas" to Automatic.		
3. Please fill out requested entries, indicated by colored cells.		
4. Cells will function best if filled out left to right and top to bottom unless othe	rwise specified.	
5. Backgrounds in completed cells change to white. A completed tab will be ver	rified by the validation text in the header.	
6. Please complete separate worksheets for each bid.		
Entry required as number or text. For numerical values, no \$, %, or other		
symbols required.		
Choice from drop-down list required. Choices may trigger additional entries to		
be completed.	<choose></choose>	
Indicates additional definitions or notes are provided.

Please complete all items. If there is none available or it does not apply, please enter Does the Facility Operate in parallel with U/Eversource (Yes/No) if No, please provide the U/Eversource account number for the retail customer

If Resource has a nampeplate rating of 25 kW or greater (AC), please provide the Recording interval (in minutes) for recording the generation output Web address where load reduction can be obtained by UfVersource Provide a one-line diagram of the Facility showing interconnection to the UfVersource grid (Indicate Versi Frovided. If it is not available, please

If No, please provide the customer load (in kW) that is connected to the Facility and served by the Facility when the grid goes down.

## NWS Resource Application Form - Prime Power Generators Intractor information The Contractor is the legal entity that is submitting the bid and will be the contracting party should the bid be accepted. The Contractor does not have to be the entity that owns the site or the equipment or that is the UVEversource retail customer. Please complete a litems. If there is none available or it does not apply in please entry! Available' or "Not Applicable". Name of Contractor Address 1 Address 1 Address 2 City State Zip Code Telephone Number Web Site ntact information The Contract should be the person who is going to be the primary point of contact for the Contractor on all matters related to this RFP and to any bid submitted by the Contractor. Please complete all items. If there is none available or it does not apply, please enter "Not Available" or "Not Applicable". If the information is the same as ownership information, please indicate "Same". Name of Contact Address 2 City State Zip Code Telephone Number Emergency/Mobile Telephone Number Email Address consymments. Please complete all items. If there is none available or it does not apply, please enter "Not Available" or "Not Applicable". Type of Generation Internal Combustion Engine Turbine/Generators e of Generation Internal Combustion Engine Turbine/Generation NOTE: - The Date of Commercial Operation is the date on which the NWS resource is available to be called upon by UI/Eversource or, for a passive NWS resource, the date on which the NWS resource will be fully operational. Does Facility have an executed Interconnection Agreement with UI/Eversource (Yes/No)? U/Eversource (Yes/No)? If Yes, please netr the date and provide a copy. If No, has Facility applied for an interconnection Agreement with U/Eversource? If so, please enter the date of application. NOTE: - If applieds, the Interconnection Agreement is the agreement between U/Eversource and the NWS resource that specifies how the NWS resource is physically interconnected to the electric grid, among other things. Zip Code Latitude (GPS Reading decimal degrees) Longitude (GPS Reading decimal degrees Nameplate Rating (Watts - DC) Nameplate Rating (Watts - AC) Not Applicable Unit Manufacturer Unit Model Number rations Specify Fuel Type (e.g., propane, diesel) On Site Fuel Storage (Hrs at full load) Does the Facility have an air emissions license to operate in Connecticut (Yes/No) If Yes, please provide a copy and indicate Yes; If No, please indicate why the Facility is exempt. Ramp Up Time minutes (from cold to full power) Ramp Down Time minutes (from full power to no load) Max Run Hours per day Max Run Hours per year Max Run Hours per year Available number of start/stop cycles per day Minimum run time per start. Operational constraints if seeking Marnet Based Rate Authority, please indicate the timetable for receiving such authority Please detail any Article X and Article VII filings, or State Environmental Quality Review (SEQR) as required COZ Emissions (ppm) SOZ Emissions (ppm) NOX Emissions (ppm) PM Emissions (ppm) PM Emissions (ppm) Hg Emissions (ppm) NOTE: - If the location of the NWS Resource(s) being bid is unspecified, please indicate "Unspecified" in the Address 1 field and "Not Applicable" for GPS information. are complete all items. If there is none available or it does not apply, please enter "Not Available" or "Not Applicable". Please provide the U/Eversource account number where the Resource is being installed if Facility has a namepiate rating of 25 kW or greater (AC), please provide the following information: Recording interval (in minutes) for recording the generation output. Web address where generation output can be obtained by U/Eversource interconnection to the U/Eversource grid (Indicate Yes if provided. If it is not available, please indicate why) Information Please complete all items. If there is none available or it does not apply, please enter "Not Available" or "Not Applicable". Please enter the amount of capacity for this Facility that you wish to bid Bid should be in kW-AC. Please indicate the period of operations for which your bid applies. Please explain any market power impacts associated with each Please provide total and monthly capital construction costs with each Proposal Please provide temporary (construction) and permanent jobs created with each Proposal Please provide a Bid Price breakdown by the following categories Labor Cost Engineering, Procurement, Construction (\$) Permitting and Siting (\$) Estimated Interconnection Cost (\$)

Please provide the customer contribution, if any.
