**NOTE:** A Renewable Energy Certificate (REC) represents the Environmental Attributes associated with one megawatt-hour of renewable energy as defined by Connecticut law. Capacity rights and RECs generated by the facilities participating in Residential Renewable Energy Solutions are transferred to the utility company in exchange for the incentive payments made to the facility owner under the program. Therefore, while you cannot claim that you are using the renewable power generated by the facility, your lease of a renewable energy system does support renewable development in Connecticut and increase the amount of solar energy consumed by all electric ratepayers in the State.

**NOTE:** The Customer of Record authorizes that the Applicant and/or Installer may view information on the customer’s energy assessment participation and historical annual electricity usage. **Program Fee Notice:** All applicants to Residential Renewable Energy Solutions are required to pay a \$\_\_\_\_\_ application fees to support the administrative costs of the program. Additionally, customers will be charged fees if and when they make changes to the payment beneficiary information. You may or may not be responsible for these fees depending on your contract with your Installer.

I, \_\_\_\_\_, hereby confirm that I have received and understand the information above, reviewed the Residential Renewable Energy Solutions Program Manual and understand the information, including the Program Terms and Conditions. I further confirm that I have had a chance to ask questions of my Installer and have received sufficient answers, if applicable.
