

Qualified Products & Connected Vehicles Lists

Multi-Unit Dwellings (MUD): Participation Paths

Customers can choose to participate in this program by using smart capabilities that are built into the onboard computer of some electric vehicle models. If your vehicle is not currently on the list below, you may not be able to participate yet in the Pilot. United Illuminating is working with ev.energy, the Pilot administrator, to add more vehicles to the list below and to open new pathways of participation throughout 2025. Please check this document in the future to determine if your vehicle has been added to the list or if a new pathway has opened to enable your participation in the Pilot.

Vehicle Connection (Telematics)

The lists below describe the make and model of vehicles that may enroll in the Pilot through their telematics capabilities.

Car Make	Car Model and Year
Acura	ZDX 2024 - 2025
Alfa	Tonale 2023 - 2025
Audi	A7 PHEV 2021+
	A8 PHEV 2020+
	e-tron 2019+
	Q4 e-tron 2022+
	Q5 PHEV 2020+
	Q6 e-tron 2025+
	Q8 e-tron 2024 - 2025
	e-tron GT 2022+

Qualifying equipment must match the software and hardware vendors listed above. Qualifying vehicles must match the EV manufacturers listed above to qualify for the Enrollment Incentive. United Illuminating does not offer preferences or recommendations for any of the approved equipment models or EV models. Program participants are responsible for determining the suitability of these products and services.
